

## ComponentType

```
classDiagram
    ComponentImplementation --|> ComponentType
```

The diagram illustrates a class hierarchy. At the top is a dashed box labeled 'ComponentType'. Below it is a solid box labeled 'ComponentImplementation'. A vertical arrow with an open triangle head points from 'ComponentImplementation' up to 'ComponentType', indicating inheritance.

## ComponentImplementation

- monitorForFailureEventReception: Tasking::Monitor
- monitorForCallOperationAdd\_InterfaceA: Tasking::Monitor
