Computational Model

relates with

Analysis Theories

$$R_i^{n+1} = B_i + C_i + \sum_{\forall j \in \Psi(i)} \left\lceil \frac{R_j^n}{T_j} \right\rceil C_j$$

prescribes

Programming Model

```
task T1(TP: Priority;
        Period: Milliseconds);
task body T1 is...
```

```
task T2(TP: Priority;
        MIAT: Milliseconds);
task body T2 is...
```

requires

Execution Platform
